Light Electric Vehicle Association LLC

The light electric vehicle (LEV) industry has created its own global trade association. LEVs are described as 2-3 wheeled electric vehicles weighing less than 100kg (i. e., electric bikes, scooters). You are invited to join this exciting effort. Whether you are a western company trying to find the right partners in Asia, or a Chinese company looking for opportunities in overseas markets, you will discover that the LEVA is the perfect medium for networking, establishing contacts, and expanding your business. We will listen to the needs of our members and organize more activities upon request. Right now, the following suggestions have been made:1. Networking. LEVA members will have a chance to meet each other during events, and will have.
